

## Dr. Julien Massue

CNRS Research Associate

Université de Strasbourg

Institut de Chimie et Procédés pour l'Énergie, l'Environnement et la Santé (ICPEES)

Email: [massue@unistra.fr](mailto:massue@unistra.fr)

### Positions

- Since 2015:** **CNRS Research Associate**, Université de Strasbourg (ICPEES)
- 2011-2015:** **CNRS Research Assistant**, Université de Strasbourg (ICPEES)
- 2010:** **Postdoctoral fellow** (Ecole Normale Supérieure de Lyon, France), **in the group of Dr. Chantal Andraud**  
*Synthesis and photophysical studies of Iridium complexes for multiphotonic absorption*
- 2008-2009:** **Postdoctoral fellow** (Columbia University, New York, USA), **in the group of Prof. Dalibor Sames**  
*Synthesis and biological studies of fluorescent dyes as neurotransmitters analogs.*
- 2006-2007:** **Postdoctoral fellow** (Trinity College, Dublin, Ireland), **in the group of Prof. Thorfinnur Gunnlaugsson.**  
*Adsorption of lanthanide complexes on gold nanoparticles for biosubstrate detection*

### Education

- 2002-2005: PhD in Organic chemistry** (Université de Rennes 1), **in the group of Prof. Dominique Lorcy**  
*Synthesis of studies electroactive ligands based on tetrathiafulvalene derivatives*
- 2002: Master in Organic chemistry** (Université de Rennes 1) **in the group of Prof Stéphane Rigaut**

### Scientific production

33 publications / 1 international patent
